ORDERING INFORMATION

Call your Belknap Sales Representative now for more information about our Blue Grass Tool Sale or contact:

Belknap, Inc.
P.O. Box 32900
Louisville, KY 40232
1-800-582-0003

NOTE: All purchases made during this promotion count toward our Bonus Rebate Program.
FIVE GOOD REASONS TO BUY

BLUE GRASS TOOLS

(and one great one)

1. QUALITY  Blue Grass tools are made from the finest materials available, in the best factories in the country, by the most skilled mechanics around.

2. VARIETY  The Blue Grass tool line is the most complete and varied line in the industry. Who else offers you a selection of 81 different hammers? Not to mention any other tools you might need.

3. PROFIT  Blue Grass tools are very competitively priced. No other factory brand offers comparable tools at a better price.

4. GUARANTEE  Belknap, Inc. stands behind every Blue Grass tool. Each tool is inspected and tested before we accept it into our stock, so you know you'll never get a defective tool. If by chance you do, we'll replace it free.

5. REPUTATION  The reputation of Belknap, Inc., built up over 140 years of constant growth and honorable service, stands behind every Blue Grass tool.

And, now for the great reason. . . . The customer is always satisfied.
BLUE GRASS TOOL SALE
DATING PROGRAM

For a limited time only, you can get special dating on all merchandise in this book. Orders placed before April 10, 1985 receive a full 2% cash discount and at least 60 days dating!

No payment is due until June 10, 1985 which gives you time to order, receive, sell the merchandise and still take the discount. What a way to start a Spring promotion!

Here's all you have to do to qualify:

QUALIFICATIONS:

- Minimum Order $350.00 to qualify for special terms of 2% June 10, Net June 30.
- Order must be entered by April 30, 1985.

You can order more than once, but no order may be less than $350.00.

Please call our toll-free Telemarketing number (1-800-582-0003) or your Belknap representative for order placement. We look forward to serving you.

BONUS OFFER

"Blue Grass Tool" imprinted waist aprons are made of heavy cloth material with extra Bartac stitching at stress points and around the hammer loop to insure longer wear. Receive 24 aprons FREE with orders for $1,000.00 or more entered before April 30, 1985.

THE NATION'S MOST POPULAR NAIL HAMMERS
"FAMOUS FORTY-SEVEN," BLUE GRASS

Drop Forged Special Analysis Steel
Scientifically Heat-Treated and Tempered
Correctly balanced and shaped head gives maximum driving power.
Crowned face prevents scarring of wood. Precision claws are uniformly
split to bite even the smallest nails.
Chrome-plated tubular steel handle is forced under pressure into the
head. A steel pin, through head and shaft, holds head permanently
tight.
Non-slip fiber composition grip, has special shock-absorbing qual-
ities. Grip permanently bonded to shaft. Won't come loose, won't turn.

Buy (6) Six Hammers Get Rack FREE
429-159 T1-BG4-HDM NO CHARGE

Drop Forged Special Analysis Steel
Scientifically Heat-Treated and Tempered
Correctly shaped and balanced head gives maximum driving power.
Crowned face prevents scarring of wood. Chamfered edge
minimizes chipping. Claw bite pulls headless pins or 20D nails. Long
curve of claws affords greatest leverage. Eyes of hammer are forged
with double taper on all four sides so that heads when driven have a
positive grip on the handle at the center of the eye. The taper of the
handle matches the taper of the eye, ensuring a very tight fit on all sur-
faces of the eye when the end of the handle is wedged.

Straight grain full octagon white Hickory handles are put through a
special treatment before driving which prevents any shrinkage of the
wood in the eye, thus preventing the handles from becoming loose.
Spring neck handle absorbs shock. Swell end grip insures perfect
hand hold.

MITRE BOXES
—BLUE GRASS—
Zinc Cast Base—Saw Included

Complete with 4x24 1 1/2 Point Back Saw with reusable saw blade protector. Saw glides on 8 steel rollers that adjust for perfect saw alignment.

Saw guides are located 1 1/2-inches apart to extreme accuracy. Base and pivot arm fully support the work at all angles. Depth stops accurately limit depth of any cut and protect saw from striking metal base. Saw guides pivot and lock at all angles along an easy-to-read scale.

Spring-loaded pointer stops guide at 7 commonly used angles. Each saw hanger must be hand tripped so saw cannot fall while work is being positioned.

Top support and work bracket.

MITRE BOXES

—BLUE GRASS—

Aluminum Cast Base

Heavy-duty, one-piece base and back is a casting for strength and durability. This frame is mounted on widespread fabricated feet for easy attachment to workbench. Mitre box work surface is four inches above workbench for safety and easy operation.

Replaceable cutting board is mounted on the base top to protect the saw from striking the cast iron base.

An adjustable work stop and work clamp assembly is included and can be used at either end of box. This holds the work and assists in making accurate repetitive cuts. Cutting surface 18 inch length, 4½ inch width. Any hand or mitre saw can be used.

MITRE BOXES

—BLUE GRASS— Saw Included

The same 5 x 28 inch, 11-point back saw that is used for the test cut is shipped with the mitre box.
Guide mechanism adjusts to blades of any thickness.
Perfect vertical cuts—Saw guides can be adjusted to insure perfect vertical saw travel throughout the entire cut. Accurate angle cuts and easy angle selection.
Angle selector mechanism can be reset to cut a perfect 90° angle. Saw guides pivot and lock at all angles along easy-to-read scale.
Spring-loaded pointer stops guides at 7 most commonly used angles.
Base and pivot arm fully support the work at all angles.
Beautiful finish—Cuts—Work support bar pivots with angle selector which keeps the work level and insures clean, sharp, matching cuts.
Ease of work placement—each saw hanger must be hand tripped so saw cannot fall while work is being positioned.

PRUNING OR UTILITY SAWS

— BLUE GRASS —

Designed for easy, almost effortless pruning, this sturdy saw is made of extra-strong, tempered, tubular steel, weatherproof durable chrome finished frame. This saw is light in weight and has a comfortable hand grip for faster one-hand pruning. Also, it is very useful, as a utility saw, around the home, farm, shop and cottage.

Although the blade is kept tight by proper tension adjustment, it can be removed and replaced without special tools. The blade is made in Norway of the finest Swedish charcoal steel, taper ground, especially hardened and tempered. The teeth, filed to razor-sharpness, cut on both forward and backward strokes.

Attractive wooden counter or wall case. Pillarproof locking device. Plexiglass front and top panels. Front opens only after releasing latch.
Cabinet size—Width 18 inches; height 18-1/2 inches; depth 5 inches.
Reorder part numbers and bit illustrations permanently printed behind each peg for better inventory control. 26 styles and sizes of the most popular numbers. High speed steel and carbide tipped router bits, with hard chrome finish.
Contents of cabinet includes one each of the following numbers:
T3-BG403—1/4-inch Straight Bit
T3-BG408—1/2-inch Straight Bit
T3-BG410—3/4-inch Straight Bit
T3-BG412—1-inch Straight Bit
T3-BG416—3/4-inch Straight Bit
T3-BG422—1-inch Veining Bit
T3-BG423—7/8-inch Veining Bit
T3-BG425—1-inch Veining Bit
T3-BG427—1-1/2-inch Corner Round Bit
T3-BG429—1-1/2-inch Corner Round Bit
T3-BG431—1-1/2-inch Corner Round Bit
T3-BG435—1-inch "V" Groove Cutter
T3-BG437—1/4-inch Hinge Mortising Bit
T3-BG442—1/4-inch Dovetailing Bit
T3-BG448—1/4-inch Beading Bit
T3-BG450—1/4-inch Core Box Bit
T3-BG454—1/4-inch Roman Ogee
T3-BG458—3/8-inch Rabbing Bit (7/8-inch)
T3-BG465—1/4-inch Combination Panel Cutter
T3-BG470—Carbide Tipped Combination (7/8-inch) Straight & Bevel Trim
T3-BG472—Carbide Tipped (1/4-inch), Flushtrim-Ball bearing Trimmer, Carbide (22 Deg Bevel)
T3-BG483—Carbide 3/4-inch Str Face
T3-BG487—Carbide 3/4-inch Str Face
T3-BG489—Carbide 3/4-inch Str Face
T3-BG493—1/4-inch Cove Cutter
T3-BG490—Replacement Ball bearing & Slinger for 472 & 473

# V-BELTS

--- BLUE GRASS --- Fractional Horse Power

For home, farm and shop machines. Quiet running, smooth performing and long wearing. Concave side—Belts grip the pulley evenly and do not slip—last longer because belt wear is distributed evenly over the whole sidewall surface.

Bias Cut Cover—Covered with a rubber-impregnated, fabric cover which is cut on a 45 degree bias. Can be wrapped tightly around the belt and prevents any foreign material from penetrating the inner core, yet leaves belt perfectly flexible for running over pulleys.

**NYLON CHALK LINE**

---**BLUE GRASS**---

Especially suited for carpentry and masonry work. Constructed from filament nylon and specially treated to hold knots securely. Lasts many times longer than cotton lines due to nylon's resistance to rot, abrasion, oil, grease, gasoline and water. Color is silvery white.

Packaged in labeled tube with skin-tight film overwrap.

Safe working load is ¼ listed breaking strength.

Does not apply under exceptional conditions such as shock load, sustained load, knotting, etc.

TRY SQUARE/MITRE SQUARE/ ANGLE FINDER
—BLUE GRASS—

Reads any angle instantly.

Checks true horizontal and vertical lines.

Lays off \( 45^{\circ} \) and \( 90^{\circ} \) angles.

Measures up to 12-inches in 8ths, 16ths and 32nds.

Increase accuracy on many jobs. Save time and mistakes with new improved try square/mitre square. You read angles, check levels, measure inches and lay guidelines—all with one heavy-duty tool.

Die-cast head, steel ruler, angle finder or chip-proof ABS plastic.

Handy, hardened steel scriber for marking wood, metal or glass.

Angle finder measures \( 0^{\circ} \) to \( 90^{\circ} \) in any quadrant. Not affected by magnetic field, heat or cold.

Movable head on steel ruler. Steel drawbolt with brass knurled nut locks head at any position.

Handy chart on back of angle finder shows degrees in angles converted to pitch per inch and foot.

PHILLIPS SCREWDRIVERS

—BLUE GRASS—

Made of alloy steel.

The wing type blade construction holds them securely in the handle.
The Blue Belkoid handles are practically indestructible and are made and designed to stand a lot of hard, heavy work. The deep flutes give a good grip.

**HIGH SPEED STRAIGHT SHANK**

General Purpose — Wire Gauge Sizes

Uniformity makes it ideal for multiple and automatic or numerically controlled machines.

Recommended for materials such as cast iron, steel, and steel forgings. Black oxide finish. Surface is specially treated for abrasion resistance and improved chip flow.

**TWIST DRILLS**

---BLUE GRASS---

**High Speed — Straight Shank — Short Set**

For Portable Use

These high speed drills are made with short flutes and short over-all length to obtain the maximum rigidity without sacrificing any of the cutting ability of these tools. This type of construction gives these drills many applications in portable drilling and sheet metal work.

**BLUE GRASS POWER BIT MERCHANDISERS**

Drills are forged in one piece from special high analysis tool steel. Heat treated full length to give over-all strength. Shanks will not twist off. Hollow ground point bores faster and cleaner holes. Precision ground shanks. Cutting edge and point accurately ground to correct thickness and angle. Large size markings on both sides of head. Full polished over-all. Tips of bits coated clear. Each bit packed in Mylar package.

Wire display rack 23 inches wide.

104
The close working association which Belknap has successfully established throughout the years continues to be a great boon to our dealer friends as well as ourselves.

Belknap is proud of having kept abreast of the latest developments in modern merchandising and dealer service. In 1952 we installed our first computer system, a 650 IBM. Refining this system each year in step with computer developments has culminated in the installation of IBM's latest No. 370 equipment.

Our entire sales force has now been equipped with a Portable Order Entry System known as M.S.I., which allows our salesmen to record their orders on cassette tapes which are played back at night to Belknap's computer when it dials the salesmen's home phones.

The year 1840 witnessed the beginning of what is now Belknap, Inc. William Burke Belknap, who in 1828 had journeyed from Pittsburgh with his family to Hickman, Kentucky, finally settled in Louisville. He opened an iron store mainly to sell iron nails, castings, horse shoes and some heavy hardware on April 1, 1840, one block away from the booming Ohio River front.

The Company grew steadily as new industry blossomed along the length of the river to serve the expanding west.

catalog containing over 5,000 pages to be stored in approximately 18 4 x 6-inch cards. This has proved to be a valuable aid to our dealers and will keep them abreast of changes in the Market Place such as product knowledge and current pricing. Better inventory control and a more profitable operation for the dealer results when he takes advantage of our Microfiche system.

We are also using Microfiche in our offices to enable us to give better and faster customer service. It allows us to dispense with the filing of individual customer invoices, for instance, since they can now be stored in one circular file providing customers with yet another improved service.

Our tractor trailer fleet has been expanded to include furniture trailers especially designed and equipped. The use of these trailers along with improved warehousing will enable us to serve our furniture
The year 1840 witnessed the beginning of what is now Belknap, Inc.

William Burke Belknap, who in 1828 had journeyed from Pittsburgh with his family to Hickman, Kentucky, finally settled in Louisville. He opened an iron store mainly to sell iron nails, castings, horse shoes and some heavy hardware on April 1, 1840, one block away from the booming Ohio River front.

The Company grew steadily as new industry blossomed along the length of the river to serve the expanding west.

Mr. Belknap decreed that the Company handle only highest quality merchandise. Adherence to this philosophy proved the greatest boon to the Company’s progress during its struggling years and enabled it to weather the ordeals of wars, floods and depressions.

The Belknap firm to this day has never succumbed to the temptation to offer lower price, promotional items that too often have been the nemesis of many wholesale distributing companies.

W. B. Belknap, the founder, continued as President until 1880 when his son, W. R. Belknap, succeeded him. A photograph made at that time is reproduced above and shows Mr. Belknap, second from the left, with his entire organization.

Belknap management has always emphasized service to its customers and regarded the pursuit of this policy its greatest business asset. Little wonder that today, as we enter the fourth decade of our second century of operation, we look back with pride on our heritage.

Our tractor trailer fleet has been expanded to include furniture trailers especially designed and equipped. The use of these trailers along with improved warehousing will enable us to serve our furniture customers more quickly and efficiently. We also expanded our regular fleet to 15 tractors and 34 trailers. Last year our fleet logged 2,543,902 miles in the states which we serve.

Every Belknap department geared to servicing our customers has undergone extensive improvement.

We would be remiss not to call attention to our upcoming 11th annual Belknap Dealer Market beginning July 27 and running through the 30th. Our showrooms, which we maintain throughout the year for the shopping convenience of our dealers, will be replete with over 350 exhibits of all the latest offerings by the nation’s leading manufacturers.

Again, Belknap regards today as in the past, that our most important commodity is our dealers’ confidence and trust.
