

CONSTRUCTION NOTES & CUT LIST

1. Species is not critical, but stiff, light woods with straight grain are preferred. Ash is excellent, as is hickory, cherry, soft maple, or poplar.
2. This pattern is designed to work with the hardware from Blackburn Tools (BlackburnTools.com), but may work with others with modification.
3. I use stub tenons to join the frame, but more complex joinery is also traditional.
4. Arm blank dimensions (2 required):
 $1\frac{1}{4}" \times 2\frac{5}{8}" \times 24"$ (24" length can be adjusted to fit the width of your shoulders).
5. Stretcher blank dimensions (2 required):
 $32" \text{ blade} - 1\frac{1}{4}" \times 1\frac{1}{4}" \times 33\frac{7}{8}"$.

VERIFY ALL DIMENSIONS BEFORE COMMITTING TO ANY CUTS
